

Name:

Worksheet One: Researching the Functions of Two American Objects

Now that you have learned about the lantern and the sad iron, your job is to work with your partners and research two more objects from the **Collecting250** site. First examine the 1802 Tea Set in the Ceramics gallery, and then the 18th-century Nkisi (pronounced n-KEE-see) in the Textiles gallery. Fill in the information as you find it. Draw a small sketch of the object in the space.

Tea Set, Ceramics Gallery	
When was it made?	Sketch the object:
Who made it, and where?	
Where is it now? (Include the city.)	
What is it made of?	Other interesting facts:
What job does this object do?	
How else might this object function?	

Nkisi, Textiles Gallery	
When was it made?	Sketch the object:
Who made it, and where?	
Where is it now? (Include the city.)	
What is it made of?	Other interesting facts:
